FIG. 5

A cross-sectional view of a mechanical assembly. The assembly includes a base (100) with a central cavity (103) and side cavities (104). A central component (101) is positioned within the central cavity, featuring a top surface (106) and a bottom surface (105). Two side components (102) are positioned within the side cavities, each having a top surface (107) and a bottom surface (108). A top cover (109) is positioned above the side components, and a bottom cover (110) is positioned below the side components. The assembly is shown in a cross-sectional view with hatching indicating different materials or sections.
